

Mr Morne Barnardo

Hello everyone!

Welcome back to school. I am excited about the new school year. It has been a short but well-deserved break for the students and teachers. We have planned many new activities, and I am confident you will enjoy them and participate when the opportunity is right.

This year, I will teach P2, P5, and P6. I am excited to announce that we will continue our DTS (Development of Text Sets) units in

P2 and P5. The units are well-planned, including lots of hands-on activities and group work I know each of you will enjoy. Furthermore, it is my second year teaching P6. I am thrilled about teaching P6 again and will ensure a positive learning environment for each student to excel in and nurture you to your full potential. I want to encourage each student to participate in the lesson activities and ask as many questions as possible. It will make the learning experiences better and more fun!

Additionally, we will keep promoting the faster and more enjoyable "Tag Rugby" game at school. As coaches, we'll focus on improving your fitness, leadership abilities and hand-eye coordination. The rugby club will be on Mondays after lunch, and I hope to see you there. On Tuesdays, the NET teachers will read various stories to P1, 2 and 3, and we will plan activities for the students to engage in.

I will also be in the playground during recess, where we can skip and play with the 'Hoola-hoops' together or play rock-paper-scissors if you fancy it; this will be an excellent opportunity to communicate with me outside the classroom. I am excited about meeting every student and look forward to the coming school year!
